“ I always liked it when George would ask me questions about aircraft and aviation. I felt really good about how George trusted me to drive his "Convert" when no one else could drive it. I especially felt good when George entrusted that same car to me; not long before his passing. I will always be indebted to George for being a grandfather to my daughter, when for whatever the reason, my own father, her natural grandfather could not, or would not be that person.

Thank you for all that you were.

Your Stepson,
Jeff Culver
