

David Louis Sever

April 10, 1930 - July 20, 2016

David was a loving husband, father, grand/great grandfather, son, brother, uncle, cousin and friend to many. He was a gifted engineer, mechanic, craftsman, and gardener.

Born second of five children to Louis and Mabel Sever in Los Angeles and raised in Lynwood CA, David served in Japan during the Korean War as a 1st Lieutenant. He married his dear wife Velora in 1955, then graduated from USC and they moved to Santa Barbara in 1959. David enjoyed 37 years as a mechanical engineer. David also "loved" his '63 Avanti.

David lived and led by example; he was steadfast and strong, gentle and kind, firm in his convictions, always thoughtful of others, and loved his dear wife Velora and family greatly. David enjoyed life and looked forward to each day; always friendly and considerate of those around him even when the pain and discomfort of his illness grew. David never complained of hardship or hurt, he was a fighter to the end. Our hearts ache for his presence, he will be greatly missed.
