“ Gordon was my pampa(great grandpa) I miss him a lot. My favorite memory of us was when I was little, he would hold his cane out for me and I would grab onto it and he'd start tapping the cane and humming a tune. My Nanny also just recently passed so I'm glad they'll be together after this long of them being parted even though I miss them both. I hope they're okay if there is anywhere you go after this, and I hope I get to see them too.
