ME

“ *Malik is my only little brother. A memory that sticks with me with my brother is when we were in Sacramento in 2019 walking to the gas station. Our other sister was with us and we walked for an hour to and from. But during that time, he and I acted out the scene from the movie “Us” and it was beyond funny because we saw both of our true personality and it was the funniest moment ever. I love and miss you little bro. Happy birthday!!!*
