SP

“ Dear Todd, Terri, and Nan's sisters,
I am wishing you strength during this difficult time, and wanted to share some things with you that I found myself thinking after finding out so unexpectedly that we had lost Nan. For me, she was like a bright ray of sunshine, a strong presence always and will always continue to be one for me. She was strong, independent, and always stood up for what she felt was right. She could be very direct with her opinions, but at the same time fragile and always very, very generous. She was a wonderful spirit, and I will carry her with me always. Thank you for sharing her with me. For me, her memory will always be a wonderful blessing. All my best to all of you, I hope you will contact me sometime. You can always get my contact info from Karen next door.

*Best wishes,
Susan Percal*

TO

“ Dear Todd and Terri,

Dr. Olson and I were saddened by the news that your mom, Nan, had passed away.

My husband, who worked at Pueblo Radiology, and I were long time friends with your parents. Your dad was my dad's doctor up to the time he died. I knew your mom well and shared the love of cooking. In fact, she showed me how to cook a steak on an iron pan, rather than broiling it in the oven. Since then, I cook fish and chicken the same way. We also exchanged a particular recipe that she loved, a Shrimp Risotto over rice. She gave me a Chicken over Rice recipe which has mushrooms and chestnuts, plus dry sherry. Be sure that you try these two recipes, if you have not used them. We had many a dinners at both our houses when all our children were young. We also had an annual Women's Medical Aux. Tasting Luncheon. We all took one of our best dishes and had all the recipes printed. We had great fun in those days, marking comments on each recipe.

If you decide to get rid of her recipes, I would love to write them to pass on and print them up. I have recently started to put my best recipes in binders, so that our 3 kids can pass them on. I'm already giving some to the grandchildren that like to cook. I have a few recipes from each of my cooking friends, with a note about that person, so they can have a history from our special friends.

Nan was a special lady, so gentle, thoughtful and gracious. Your dad was not only an excellent internist ; he had an inquisitive mind. They gave me the book they wrote on the family history, which I treasure.

You both were most lucky to have such wonderful parents. They were so special, respected and loved. May their memories bring smiles to you both as time goes by. We know it is a very difficult time, especially when both parents are no longer with us.

Sincerely,

Terry and Bob Olson
