“ Last Spring, we received a mysterious package in the mail. In was not marked with a Return Address, nor great detail, it simply read, "FROM: The Easter Bunny", TO: Thammavongsa Children" We opened the box, cautiously, not knowing what to expect, first of our experience, but magical feelings radiated from this box, so with smiles and like a child myself, we peeled it open and out fell Marshmallow Easter Egg's from The Easter Bunny!! Herself!! Fresh from her Garden of Love, and To this Day, I will always hold dear to my heart, the Gift of Hope & Magic that Mrs. Krebs gave me that day..Smiles Ear to Ear! It was an everlasting impression of her kindness, one of the 2 greatest experiences my family will always be thankful for, the first, is rooted in allowing a child to call a home "home". Now, I get it, her Roots will forever be embedded in our hearts. May the Garden's of Heaven be forever yours. - The Thammavongsa Family; Melissa, Bryan, SR-Sedtha, Triplets Parker, Alyson & Gavin.

“ Am so sorry to hear this news today. Sharron always sat across from me in ceramics class, and always a smile on her face. We shared many laughs and she often talked about the upcoming wedding for which she was creating many items. I will miss her, as I did in today's class, very much, but am very grateful to have had her as a companion creator. With all my good wishes to the family and with thanks for the memory in which she still lives --  
Bettina (Barrett)
