

Steven Mather Little

April 5, 1925 - May 20, 2019

Our dearest dad and grandfather and great grandfather, Steve Little joined mom today....and now reunited after three years apart we have no doubt that they are happy together. As most of you know, he served our country as a “rocket engineer” at China Lake Naval Weapons Center and a Commander, US Naval Reserve (retired) jet pilot. Even after his hip surgery this week, he wanted to discuss the techniques of the rod and pin placements in his femur. Sadly at his age, he just could not weather this storm. So to our favorite sailor we say “Fair winds and following seas shipmate, you stand relieved...we have the watch.”
